

The Third Quarter 2026 Safety Committee Meeting Minutes
Meeting attendees: Andrew Marteka (Safety Committee Co-chair)
and Linnea Reline
August 27, 2026 at 2 p.m.

Old Business:

It was mentioned that parking lot light pole #68 was still burned out. Linnea said the bulb was replaced but she fears it is a socket issue. She'll follow-up with the landlord.

I noticed that some of the cafe's long rectangular rugs were secured by black tape where the corners were sticking up. I thanked Linnea for addressing that.

New Business:

In my on-going almost daily walk-arounds I had noticed a pile up of office chairs in Classroom A. Linnea said Classroom A is a repository for broken chairs as we start construction on reducing the space the office needs.

Linnea asked me to keep a hawk's eye out in the coming weeks and months as construction starts and report any safety issue to her immediately. I reconfirmed who to report to and she told me directly to her. Linnea is responsible for the office. I happily agreed.

End of meeting 2:30 p.m.
