

Minutes from Quarterly Safety Meeting

June 11, 2026

Old Minutes: The pedestrian bridge in the back parking lot had integrity issues. This has been repaired.

- 1) New minute items: Rectangular rugs in the cafe have a tendency to stick up causing a tripping hazard.
- 2) Parking lot lights burn out from time to time. We will need to report this to management so they can let the property owners know to fix it.
- 3) Bathroom floor can be wet after cleaning and there is no caution sign displayed. I have rarely noticed this since the Jana-King staff are keen on posting signs but do miss this from time to time.

In attendance: Andrew Marteka-Chairman of Safety Committee

Linnea Reline-Management

Sean Ayars-Management

Not in attendance: Alan Creason-Co-chairman of Safety Committee
