

Safety Committee Meeting
February 21, 2024

Attendees: Greg Innocent-Administration Manager
Alan Creason-Co-chairman safety committee
Bernard Griffin-Co-chairman safety committee

There were a few items up for discussion on the agenda:

- 1) The runner rugs in the cafeteria were an area of concern. Upon inspection, there were a couple of corners sticking up that could cause someone to stumble. Since our meeting, I have already seen American working on this issue.
- 2) The other main problem we wanted to discuss was stocking the hand sanitizer stations. We have the alcohol based wet wipes dispersed throughout the sales floor and they can be used for both work stations and our hands.
